

Luzon Philippines Mangrove Reforestation Implementation

Issues identified in the following areas:

NDVI	Plant Growth	VIIRs Alerts
0.15	14%	64

Mangrove Reforestation and Carbon Sequestration in Palawan

No issues currently identified

MRV report **now available**. Review and submit for credit issuance request.

Sustainable Bamboo Cultivation and Carbon Offset in Bicol Region

No issues currently identified

3 months until your next monitoring report

Sustainable Bamboo Cultivation and Carbon Offset in Bicol Region

No issues currently identified

3 months until your next monitoring report

Biodiverse Reforestation of the Philippine Archipelago

Issues identified in the following areas:

- Section 5: Conditions and Eligibility
- Section 8: Stakeholders

Tropical Rainforest Restoration in Mindanao

No issues currently identified

This project is currently being registered. Once approved, monitoring data will appear here.

Sustainable Agroforestry Development in the Zamboanga Peninsula

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Sustainable Agroforestry Development in the Zamboanga Peninsula

No issues currently identified

Coral Reef Restoration and Blue Carbon Initiative in the Visayas

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Highland Reforestation and Carbon Credits in the Cordillera Mountains

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Agroforestry and Carbon Farming in Central Luzon

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Agroforestry and Carbon Farming in Central Luzon

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Community-Led Forest Conservation in Northern Luzon

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Mangrove Ecosystem Restoration in Leyte

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Peatland Conservation and Rehabilitation in Agusan Marsh

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Peatland Conservation and Rehabilitation in Agusan Marsh

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Enhanced Carbon Storage through Urban Greening in Metro Manila

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.

Peatland Conservation and Rehabilitation in Agusan Marsh

No issues currently identified

This project has been submitted and is in review. Once approved, monitoring data will appear here.
