Speech to Text Transcription

[00:00:01] Speaker:

Good afternoon, esteemed colleagues and viewers across the nation. I hereby call the session to order. Today, we convene to deliberate on the proposed Digital Transformation Act—a bill designed to modernize our public service infrastructure and propel the Philippines into a new era of digital innovation.

[00:01:15] Senator Juan Dela Cruz:

Thank you, Mr. Speaker. I rise in strong support of this landmark measure. The Digital Transformation Act is not merely about adopting new technology—it's about creating a more efficient, transparent, and accessible government. Our citizens deserve services that keep pace with the rapidly changing global landscape.

Influential Comment

- GrowthMinded This sounds promising for SMEs that the senate is looking to list. Simplifying the IPO process is long overdue. Good idea.
2025-04-06 18:33 1434 304
- SenateWatcher Can we get more details on how small investors are protected under this reform?
2025-04-06 18:35 876 45
- InvestmentGuru The proposed timeline seems optimistic. What's the contingency if CMEPA can't meet deadlines?
2025-04-06 18:37 652 78
- PublicVoice How will this bill address cross-border listings
2025-04-06 18:57 803 52
- YouthAdvocate Will student investors get an educational portal to learn about these market changes?
2025-04-06 18:42 489 10
- EconStudent How does this align with the BSP's current regulation capital requirements?
2025-04-06 18:45 374 88
- FinancePro The digital signature rollout is a game-changer for speed kudos to the Approver team.
2025-04-06 18:47 921 55
- TransparencyNow Good to see the public comment period built in. Keep up the accountability!
2025-04-06 18:50 1213 30
- MarketWatcher Is there an impact analysis on rural communities included in this bill?
2025-04-06 18:52 754 65
- PolicyInsider Will this reform mandate transparency in political fundraising tied to IPO listings?
2025-04-06 18:33 1434 304

Displaying data for: **Entire Stream** 08:23 - 09:56 ▾

The chart displays the sentiment score over a 24-hour period, ranging from -10 to 10. The y-axis is labeled "Sentiment Score Over 1 Minute" and the x-axis is labeled "Time". The data shows significant fluctuations, with peaks around 23:00, 33:00, and 35:00, and troughs around 15:00, 18:00, and 21:00. A horizontal dashed line is drawn at 0.

Sentiment by Emotion

A radar chart showing sentiment scores across six emotions: HAPPY, AFRAID, CALM, FEAR, SURPRISED, and ANGER. The points are plotted as follows:

- HAPPY: High score
- AFRAID: High score
- CALM: Moderate score
- FEAR: Moderate score
- SURPRISED: Low score
- ANGER: Low score
- EXCITED: Moderate score

Word Cloud

A word cloud visualization of the most frequently used words in the dataset. The size of each word indicates its frequency.

Bar Chart

A horizontal bar chart showing the count of words for specific terms. The terms are listed on the left, and their counts are on the right.

Term	Count
focus	11,234
cloud	9,323
reform	7,432
comments	3,473
policy	2,172
speaker	234

Most Used Emojis		
😊 Grinning Squinting Face	192	
😍 Smiling Face with Hearts	186	
🤣 Rolling on the Floor Laughing	130	
😣 Persevering Face	67	

A sentiment category cloud comparing positive and negative words. The positive side (left) includes words like amazing, positive, happy, felt, wonderful, success, joy, great, and bright. The negative side (right) includes words like sad, I, feeling, really, bad, terrible, and horrible. The background features a grid of words such as beauty, perfect, outcome, experience, smiles, achievement, truly, superb, seeing, excellent, achieving, event, made, found, absolutely, celebration, times, fun, everyone, brought, results, deeply, went, loss, project, utterly, stress, cry, failure, worried, brought, poor, unfortunate, and result.
